Abstract

The objective of this study is to examine the coherent view of language and assembling the use of jargon and slang in relation to police identikit. There is no coherent view or perspective in using jargon and slang and be various perspective. In this perspective, it is necessary to view the use of jargon and slang in communication among researchers. In analyzing language usage of jargon and slang. The Speaking Model as a theoretical basic studies by the Speaking mnemonic. The Speaking Model offers a theoretical basis for language study that accounts for both linguistic variation from individual to individual and relative linguistic coherence across the social realm. The relation to use jargon and slang amongst Police force. Police jargon and slang are to communicate with each other in their duty. Jargon and slang is important in Police Force because it consists of terms, body language, acronyms, codes, and abbreviations. This can quickly and concisely be used to describe many things by the police both in written and verbal form. This language can describe people, places, property and situations by using The Speaking Model. This study is relevant to ascertain the perception of usage of jargon and slang by using The Speaking Model and this model can applied to study the elaborated codes of jargon and slang in sociolinguistic. Thus, the information obtained is jargon and slang associated in every profession but police jargon and slang is the most interesting one in strategic studies because of their own identity in communication.
